

Consistency Checker

What is the Consistency Checker for?

The **Consistency Checker** is a Premium tool available with a **Solo, Duo, or Family** subscription. This tool identifies anomalies detected in your family tree and allows you to correct them easily. Three levels of anomalies are provided: **Errors**, **Alerts**, and **Notices**.

How to use the Consistency Checker?

1. Click the «**Check the Tree** » button or the « **Anomalies in the tree** » module on your dashboard.

2. The list of anomalies will appear. It is sorted by severity level: **Errors in red**, **Alerts in orange**, and **Notices in blue**. You can export this list as a **.pdf** by clicking the "**Export to PDF**" button. After making changes to your tree, click the "**Restart Analysis**" button to update the error list.
